## GOLD RESERVE BEGINS DRILLING AT CHOCO 5

**September 6, 2007 - Gold Reserve Inc.** (TSX:GRZ – AMEX:GRZ) announced today that it has commenced drilling at its Choco 5 property in the El Callao region of Bolivar State in Southeastern Venezuela. The first phase drilling plan calls for approximately 2,500 meters of diamond core and is targeting an anomaly based on a 100 by 100 meter geochemical soil sampling grid. The exploration target was refined by ground magnetics and radiometric geophysical surveys.

Choco 5 is a 5,000 hectare property located in the prolific El Callao gold mining district of Venezuela and is contiguous to Gold Fields Limited's (NYSE:GFI) Choco 10 gold mine. At present there is one drill rig operating at Choco 5 and additional drills will be added based upon this program's results. Drill results are expected later this year.

Gold Reserve Inc. is a Canadian company developing the Brisas gold copper project in Southeastern Venezuela. Brisas has NI-43-101 reserves of 485 million tonnes of ore grading 0.67 grams per tonne gold and 0.13% copper containing 10.4 million ounces of gold and 1.3 billion pounds of copper (using a revenue cutoff grade of US \$3.04 per tonne and a gold price of US \$400 and a copper price of US \$1.15 per pound). The mine plan anticipates using conventional truck and shovel mining methods with the processing of ore at full production of 70,000 tonnes per day, yielding an average annual production of 456,000 ounces of gold and 60 million pounds of copper for a mine life of 18.5 years. Using copper as a byproduct, operating costs are expected to be US \$126 per ounce (using US \$1.80 copper). The Qualified Personnel for the NI 43-101 Report are Susan Poos of Marston and Marston, Inc. and Richard Addison and Richard Lambert of Pincock, Allen and Holt, all registered professional engineers.

## **Forward-Looking Statements**

Certain statements included herein, including those that express management's expectations or estimates of our future performance concerning the Brisas Project or the Choco 5 Exploration Project, constitute "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by management at this time, are inherently subject to significant business, economic and competitive uncertainties and contingencies. We caution that such forward-looking statements involve known and unknown risks, uncertainties and other risks that may cause the actual financial results, performance, or achievements of Gold Reserve Inc. to be materially different from our estimated future results, performance, or achievements expressed or implied by those forward-looking statements. Numerous factors could cause actual results to differ materially from those in the forward-looking statements, including without limitation, concentration of operations and assets in Venezuela; corruption and uncertain legal enforcement; requests for improper payments; regulatory, political and economic risks associated with Venezuelan operations (including changes in previously established legal regimes, rules or processes); the ability to obtain or maintain the necessary permits or additional funding for the development of the Brisas Project; in the event any key findings or assumptions previously determined by us or our experts in conjunction with our 2005 bankable feasibility study (as updated or modified from time to time) significantly differ or change as a result of actual results in our expected construction and production at the Brisas Project (including capital and operating cost estimates); risk that actual mineral reserves may vary considerably from estimates presently made; impact of currency, metal prices and metal production volatility; fluctuations in energy prices; changes in proposed development plans (including technology used); our dependence upon the abilities and continued participation of certain key employees; and risks normally incident to the operation and development of mining properties. This list is not exhaustive of the factors that may affect any of the Company's forward-looking statements. Investors are cautioned not to put undue reliance on forward-looking statements. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by this notice. The Company disclaims any intent or obligation to update publicly these forward-looking statements, whether as a result of new information, future events or otherwise.
